

# MOTORS

## THE FACTS

### LOWER COSTS

- Marley cooling tower motors offer outstanding corrosion protection (exceeds IEEE 841 specs)
- Double impregnation and bake insulation system on copper coils
- Moisture protection for conduit wiring and motor shaft
- Multiple automatic drain plugs to reduce moisture buildup
- Excellent availability and ready to ship for less downtime

### DURABLE LONG LIFE CONSTRUCTION

- Marley cooling tower motors meet explosion-proof motor standards
- Premium materials and engineering for extra strength

## THE COMPARISON

MARLEY®		LEADING COMPETITORS
All surfaces	<b>PAINT</b>	May not coat internal surfaces
Double-layer	<b>INSULATION</b>	One layer
Isolator and V-ring slingers standard	<b>MOISTURE PROTECTION</b>	No lead separator or external slinger
Multiple	<b>DRAIN PLUGS</b>	One
Cast-iron frame and terminal box	<b>PREMIUM MATERIALS</b>	May not provide casting thickness necessary for durability
