

MOTORS

LOWER COSTS

- Marley cooling tower motors offer outstanding corrosion protection (exceeds IEEE 841 specs)
- Double impregnation and bake insulation system on copper coils
- Moisture protection for conduit wiring and motor shaft
- Multiple automatic drain plugs to reduce moisture buildup
- Excellent availability and ready to ship for less downtime

DURABLE LONG LIFE CONSTRUCTION

- Marley cooling tower motors meet explosion-proof motor standards
- Premium materials and engineering for extra strength

THE COMPARISON

MARLEY®		OTHER MANUFACTURERS
All surfaces	PAINT	May not coat internal surfaces
Double-layer	INSULATION	One layer
Isolator and V-ring slingers standard	MOISTURE PROTECTION	No lead separator or external slinger
Multiple	DRAIN PLUS	One
Cast-iron frame and terminal box	PREMIUM MATERIALS	May not provide casting thickness necessary for durability
